Time Management
Attention to Detail
Sense of Humour
Self Motivation

education

New Media Design & Web Development Diploma
BCIT | 2023-2025

experience

Product Design & Web Development
Freelance | 2022-present

I've completed various small freelance design projects, focusing on creating digital promotional materials and content. Below are two full projects that highlight the scope of my work.

Website Development - Black Clover Snow Removal

Vancouver, BC | September 2024

- Managed client communication and project updates.
- Developed a fully functional landing page from start to finish.
- Designed the site layout and user interface.
- Handled front-end development with HTML, CSS, and JavaScript.
- Performed minor back-end tasks for functionality.
- Implemented on-page SEO for better search visibility.
- Took care of hosting, domain registration, and site launch.

Kabinet Nail Salon - Visual Identity

New Westminster, BC | May 2024

- Developed a brand identity, including logo, colour palette and typography.
- Designed business cards and product patterns for the brand consistency.
- Created a social media asset package for Instagram, including profile pictures, highlight covers, and service menu cards.
- Established content pillars outlining tone of voice and communication style.
